### **THE NEWS PRODUCTION ACTIVITIES IN THE PUBLIC RELATIONS AND INFORMATION SUBSECTION AT THE DPRD OF DKI JAKARTA PROVINCE**

*This Professional Work Report describes the experience of the intern over three months working as a journalist (news writer) at the Secretariat Office of the DKI Jakarta Provincial Legislative Council (DPRD), specifically in the Publicity and Information Subdivision. The intern's task was to create news reports on events that had occurred or would occur regarding the work programs of the DPRD members. The tasks carried out during this Professional Work experience were also previously studied in courses such as PBTV (Television News Production) and Introduction to Journalism, where techniques for writing news reports using the 5W + 1H method were learned. The steps the intern followed during this Professional Work as a journalist included: first, receiving the meeting schedule and the topics to be discussed; then, attending the meeting and gathering materials for the news report; next, the process of creating the news report, followed by the correction stage carried out by the editorial leader. Afterward, the intern made revisions based on the corrections. Once the revisions were completed, the next step was to wait for approval from the Publicity and Information Subdivision for publication, and finally, the news was published.*
