KAJIAN PERENCANAAN DAN PELAKSANAAN DESAIN INTERIOR PADA PT . NAMTO KRAF INDO

During this Professional Work period, practitioners had the opportunity to engage in hands-on experience at PT Namto Kraf Indo, a company specializing in interior design and construction services. As members of the interior design division, practitioners were responsible for creating designs that align with client preferences, overseeing the entire process from design to construction and final handover.

The practitioners participated in various stages of the project, including conducting location surveys, space planning, serving as field supervisors, and quality control. This Professional Work experience provided them with valuable knowledge and practical skills in interior design. They were able to apply their theoretical learning to real-world scenarios, enhancing both their hard and soft skills throughout the stages of interior design planning and construction.

Keywords: Professional Work, Interior, Interior Planning, Interior Construction.
