### **ANALISIS SISTEM INFORMASI PENAWARAN HARGA PADA PT DUTA PRATAMA ENGINEERING**

*The professional work report discusses the analysis of the accounting information system related to price quotations at PT Duta Pratama Engineering. The practitioner carried out the professional work activities for a duration of 2 months. The practitioner examined various aspects of creating price quotations, starting from cost calculation, data input into the Accurate 5 system, to the creation of supporting documents such as invoices, receipts, and Tax Rate Certificates (SKTP). During the professional work, the practitioner encountered several challenges, such as inaccuracy and incomplete information, which were resolved through effective collaboration and communication with colleagues. This experience provided deeper insights into the practical implementation of Accounting Information Systems theory and enhanced the practitioner's skills in financial management and company administration.*

**Keywords:** *Information Systems, Accounting, Pricing, Accurate 5, PT Duta Pratama Engineering*
