Students from the information systems study program at Universitas Pembangunan Jaya who have a high commitment to the development of information technology and its application. With an educational background in this field, I have a good understanding of the basic concepts of information systems, basic data management, and good business analysis. I have high motivation to continue learning and following the latest developments in the field of information technology. Internship experiences, organizational and academic projects have strengthened my ability to work in a team or independently, and adapt quickly to technological developments.
