Overview of the Workflow of a Research Assistant Profession in the Research, Development, and Analysis Department at PT. Dapoer Dongeng Noesantara

The intern had the opportunity to participate in the Kampus Merdeka Mandiri program at PT. Dapoer Dongeng Noesantara. Universitas Pembangunan Jaya supports the Kampus Merdeka Belajar program by converting specific course credits into practical work activities in accordance with established regulations, one of which is the Professional Work course. In this program, the intern served as a Research Assistant in the Research, Development, and Analysis division. The intern was involved in two major projects at PT. Dapoer Dongeng Noesantara. The first project, Kelindan Pilot Project, is an initiative aimed at equipping Indonesia's young generation with life skills to address challenges in environmental, health, and economic justice issues. The second project, SMASHED Indonesia, is an educational program focused on life skills development for teenagers. Through this work experience, the intern gained professional insights and practical knowledge, contributing to the development of attitudes and skills needed to navigate the professional world,
