ANALYSIS OF THE INPUT OF GOODS PURCHASE LETTERS, CHART OF ACCOUNT AND PRODUCTS AT PT JAYA TEKNIK INDONESIA

The implementation of Professional Work was carried out by practitioners at PT Jaya Teknik Indonesia. The company is engaged in contracting, trading, services, operations and maintenance of Mechanical, Electrical, Electronics (MEE) and Information Technology (IT) and is always committed to providing “Quality and Reliability”. Practitioners are placed in the IT department and support the work for the switching from the Epicor system to the Odoo ERP system. The work is the migration of purchasing data which includes requests for goods and purchases of goods, inputting charts of accounts, and inputting requests for products. During the Professional Work, practitioners can develop insights and skills and implement theoretical accounting knowledge such as Financial Accounting, Accounting Information Systems, and Management Control Systems.

Keywords: Software, ERP, Data Migration, Accounting, Purchasing.
