### **Proses Penerbitan Faktur dan Mitra Pajak (PPN) Menggunakan ERP Perum BULOG Pusat**

*As time progresses, the human needs needed to do work will also change. Human resources will decrease over time if they are not sharpened and do not have mature knowledge. As a useful asset, it is important for human resources to have high and mature knowledge in order to be able to compete in the world of work. Pembangunan Jaya University has facilities for students to further develop this course, namely Professional Work (KP). Practitioners get the opportunity to carry out professional work in the accounting division of the Perusahaan Umum (Perum) BULOG. Perum BULOG's main business activity is serving food logistics throughout Indonesia. During the Professional Work period, interns carry out several tasks such as approving partners and output invoices on Output VAT as well as carrying out bank reconciliations using Enterprise Resource Planning software to help manage company activities. Practitioners gain benefits and learning during their professional work period at Perum BULOG.*

**Keywords:** *Enterprise Resource Planning, Bank Reconciliation, Output Invoice, VAT*
