### **OVERVIEW OF PSYCHOLOGIST ASSISTANT WORKFLOW AT PT. INDRIA INTEREDINDO (TRIKHARISMA CONSULTANT)**

*The need to be able to compete in the world of work is one thing that every individual needs to understand. The ability to compete healthily in the world of work can start from knowing your abilities and personality. This is important to be considered and determine the future career path. To find out the competence and personality, an assessment from a psychologist is needed through a series of assessment processes such as psychological tests, interviews, or observations. To assist the duties of a psychologist, a Psychologist Assistant is needed. Practitioners take part in Professional Work activities at PT Indria Interedindo (Triharisma Consultant) as a Psychologist Assistant. Practitioners take part in Professional Work activities or internships with the MBKM scheme. Practitioners carry out Professional Work for three months. During the Professional Work, practitioners are given the opportunity to administer psychological test tools, scoring, observation, creating psychoeducational content, making partial interpretations, and so on. The reason why practitioners take part in Professional Work activities, especially in the position of assistant psychologist, is to see a real picture of the workflow as an assistant psychologist in the industrial field.*
