PROSEDUR PENCATATAN TRANSAKSI ACCOUNT PAYABLE MENGUNAKAN SISTEM OPEN BRAVO PADA PT TRAYA TIRYA CISADANE

In 2024, Indonesia recorded the highest unemployment rate among six ASEAN countries, with a rate of 5.2% and 12.11 million underemployed individuals. This phenomenon indicates a mismatch between the skills possessed by the workforce and the needs of the labor market, exacerbated by technological advancements and structural changes in industries. This situation demands an improvement in human resource quality through the development of relevant skills, both theoretical and practical. Universitas Pembangunan Jaya plays a significant role in preparing students for the workforce through the Professional Work Program (Kerja Profesi or KP), designed to bridge formal education and labor market demands. This program provides students with real-world work experiences, fosters social skills, and strengthens teamwork abilities. One implementation of this program is conducted at PT. Traya Tirta Cisadane, in finance as account payable, where students gain an understanding of the practical application of academic theories in the financial sector. The program aims to equip students with both academic and professional competencies, enabling them to adapt and compete in a dynamic job market.
