ANALYSIS OF THE APPLICATION PROCESS FOR EXTENSION AND LICENSING OF RUPIAH PROCESSING SERVICE PROVIDERS AT BANK INDONESIA

In welcoming the golden generation which result in increasing competition in the world of work. This encourages students to be active and directly involved in profesional work experience. Interns have undergone profesional work at Bank Indonesia for six (6) months. During the profesional work, the pratician was placed in the Division of Perizinan and Pemantauan Kelembagaan (DP2K) which is tasked with licensing of Penyelenggara Jasa Pengolahan Uang Rupiah (PJPUR) industri. The activities carried out by the pratician were checking licensing documents and analyzing financial reports. In addition, the pratician also conducted a plafond analysis in Kas titipan at the Bank Indonesia representative office. The obstacles experienced by the pratician during the profesional work were in the BI-SILK sistem. However, the pratician was able to overcome these obstacles by communicating with the supervisor. By carrying out this profesional work, the pratician gained a lot of experience and learning in the world of work. So that the pratician can get a theoretical overview during lectures in the world of work.

Keywords: Analysis, Financial Report, Plafond.
