ANALISIS PENCATATAN SISTEM INFORMASI AKUNTANSI DAN PENERBITAN VENDOR BILL PADA PT JAYA TEKNIK INDONESIA

The use of technology in business processes in a company today is a must. PT Jaya Teknik Indonesia implements the use of this technology in carrying out its business activities. The rapid use of technology must also be accompanied by competent and experienced human resources. Universitas Pembangunan Jaya provides facilities for its students to be able to develop and gain experience through the Professional Work (KP) program. In this case, the intern has the opportunity to carry out professional work at PT Jaya Teknik Indonesia, which is also part of the Jaya Group. During this professional work, the intern gains so much new experience, especially in the fields of information, technology, and accounting. The intern does work related to data migration between systems, inputting transactions related to debt, and procedures for recording payments.

Keywords: Migration, Input, Debt, Payment Recording
