Books are like reservoirs of important knowledge in the world of education. A study on learning based on soft skills in the second grade of elementary school. As optimally as possible, the student contains neither noble values nor the nature of the student is created and needs to be deployed. Design is a system that is suitable for all types of design, not looking at things individually or individually, but as a whole in which problems are related. Masks are one of the creations of human civilization. Masks can become a cultural feature of a country.

**Keywords:** : Design, Book, Mask
