### ***“TEACHING PRACTICE DEVELOPMENT AND PROFESSIONALISM THROUGH THE PROFESSIONAL WORK COURSE PROGRAM AT SMA BUNDA MULIA”***

This Professional Work Report is compiled as an academic accountability for the teaching practicum conducted at SMA Bunda Mulia Jakarta, which took place from July 14, 2023, to July 14, 2025. The primary objective of this activity is to integrate management and education theories acquired during university studies into practical application as an educator in the field of Cultural Arts/Music. During the assignment, the author was responsible for developing teaching materials, managing classrooms, conducting extracurricular activities, and collaborating with fellow teachers in curriculum development based on the Merdeka Curriculum and the Pancasila Student Profile (P5) project. This report also discusses various challenges, such as low student motivation, limited facilities, and differences in student abilities, which were addressed through personal approaches, the use of digital music technology, and differentiated instruction. Through this experience, the author gained in-depth insights into the strategic role of teachers in shaping student character and competencies, as well as the importance of developing adaptive, collaborative, and professional educational human resources. This report is expected to serve as a reference for students, educators, and education policymakers in developing effective and contextual professional work models.

**Keywords:** professional work, music education, educational human resource development, Merdeka Curriculum, differentiated learning, professional teacher.
