PROFESSIONAL WORK ACTIVITIES AS AN ACCOUNTING IN THE FINANCE, ACCOUNTING, AND TAX DIVISION AT PT INOVASI KARYA INTERNASIONAL

Professional Work is an academic activity that provides direct experience to students in the world of work according to their field of study. Practitioners carry out professional work at PT Inovasi Karya Internasional, a provider of outdoor equipment and ergonomic office furniture under the All For Work (AFW) and Alltrek Outdoor brands. Practitioners are placed in the Finance, Accounting, and Tax Division as Accounting Intern with duties including recording daily marketplace cash flow, petty cash analysis, inputting sales data and advertising costs, stock-taking, bank reconciliation, grouping cash flow and loans, and recording return transactions. While doing Professional Work, practitioners faced obstacles related to technical work, practitioners managed to overcome these obstacles with the help of mentors and personal initiative. This experience broadens the knowledge of accounting practices, improves problem solving skills, and prepares for professional readiness.

Keywords: Professional Work, PT Inovasi Karya Internasional, AFW, Finance Accounting Tax Division, recording cash flow, grouping cash flow and loans, recording return transactions, petty cash, accounting systems, stock-taking, bank reconciliation, accounting practices, problem solving, professional readiness.
