TYPES OF INCOME TAX IN INDONESIA

The process of making this booklet aims to provide an influence on taxpayer awareness, knowledge, and understanding of several Income Taxes in Indonesia and an understanding of the regulations therein. The method used in making this booklet is a Literature Review Study based on data or sources to be used as reference. The final result of making this booklet is so that students, especially Universitas Pembangunan Jaya and also the community can understand well about some of the income taxes in Indonesia.

Keywords: taxpayer awareness; income tax in Indonesia; understanding tax regulations
