AUTOCAD DRAWINGS IN COMMUNICATING DESIGN IN MOREIDS ARCHITECTS

At the internship program in Moreids Architects design consultant, the intern is in the position of intern architectural designer, supervised by the principal architect and helped by other Moreids employees. The intern also was assisted by the Technical Director of Moreids Architects, especially in the matter of 2D drafting and 3D modelling

The intern was put in various fields of work in Moreids Architects to study jobs like design, drafting, and 3D modeling. All the work are done digitally on a computer with softwares such as autoCAD and sketchup. The intern work on projects that are related to technical drawings with autoCAD. Projects that the intern was involved in and associated with autoCAD are Rumah Depok, Halaman Belakang Rumah, and Taman Mahakam. Other projects include Omah Does, Rumah JR, Ruang Jemuran and Rumah T.

Keywords: Software, drafting, AutoCAD, technical drawing
