

## **ABSTRACT**

Muhammad Arisyar Mandawi (2015101025)

### **ASPECTS TO CONSIDER IN PLANNING AND DEVELOPING HOUSING PROJECT**

*During this internship at CV. Magelang Jaya, author works as an architect assistant to hel the Junior Architect (Satya Nugraha). Author successfully gain trust from other partner to help with the housing project. Author has been given a task to draw using an application called AutoCAD, count the budget plan, also design the front part of the house. Authors did learn a lot of new things about housing project that is located in Nusa Indah, Ciputat. In this housing projet, author first have to count the need in building and developing a housing project. Such as, counting the amount and cost for tiles and walls, (including paint, tiles, cables etc). Author also learn to draw some working drawings (including floorplan, foundation detail and other things.*

*Keywords: Design, using, Working Drawings.*
