

ABSTRACT

Vayzal Nanda Rahmadi (2018051007)

REPORT OF PROFESSIONAL WORK IN PRODUCT RESEARCH AND DEVELOPMENT DIVISION AT CV. DEKAYU INDONESIA (DEKAYU)

The student is led by a Bussiness Development Office and assigned to the Research and Development (RnD) division. During work time, we do various tasks such as doing research, developing products, and designing products. The most important thing that we learn is getting to know how the real world of work is and practice our communication skills when dealing directly with PICs, owners, and other division. Also, we are more prepared to work after we graduate.

Keywords: *Product Design, Research.*
