OVERVIEW OF WORK PROCESS AS PSYCHOLOGIST ASSISTANT IN YAYASAN PRAKTEK PSIKOLOG INDONESIA

The practitioner carries out professional work activities (KP) at the Indonesian Psychologist Practice Foundation as a Psychologist Assistant for three months. The reason the practitioner chooses the Indonesian Psychologist Practice Foundation as a place for carrying out professional work is to achieve a graduate profile from the Psychology study program at Pembangunan Jaya University and increase work experience in the field of Psychology as an assistant psychologist. As an Assistant Psychologist, the Practitioner is tasked with administering psychological test tools, including being a scorer for test results, and being a tester or co tester. In addition, there is also the task of compiling a company database to then offer psychological assessment services.
