ARCHITECTURE AND INTERIOR DESIGN RENOVATION PLAN PROCESS

While carrying out professional work within a period of three months at PT. Ananta Mitra Selaras, the practitioner works under the principal as an intern. In this professional work report, the practitioner works on several projects, including the Renovation of the Cibubur House, the Renovation of the Coptic Church and the Renovation of the BSD House. In the implementation of this professional work, the practitioner performs assignments in the planning section. In this plan, the practitioner is more dominant in using the Sketchup software for the implementation of work in their daily lives.

Keywords: *Planning, Renovation, Interior, 3D Modelling.*
