GREEN BUILDING DATA MANAGEMENT PROCESS INTO WRITINGS FOR PUBLICATION

The intern did internship in PT. Yodaya Hijau Bestari. The company itself is focusing on consulting green building. The consultations provided, include: Green Certification, Green Design and Construction, and Green Awareness. The scope of works that the intern did was calculating the OTTV in a building, managing data on the application of green building in buildings and presenting it in a written form to be contested and to be published. Also, designing a office interior according to the requirements given by the client. The lessons that the intern gets from internship are, various types of green building application in a buildings, attaching data to a proposal and writings so that it is easy to understand.

Keywords: *Green Building, data management, publication.*
