FLAT BUILDING AND OFFICIAL RESIDENCE PROJECT WORK IN SOUTH JAKARTA

Professional Work is an important subject which students must carry out from Pembangunan Jaya University as a qualification for graduation. Within the past three months, the practitioner act out as an intern architect who was involved in the architecture and interior project. As this program continues, the practitioner can learn many things about the world of work.

The practitioner does the practice of Professional Work in PT. Bangun Bagus Karyatama, also known as Bagas and Associates, is an architectural consultant established in Jakarta, 2001. Established by Bagas D. Bawono, this company is experienced in planning, design, and construction. In addition, this company involved in a variety of projects, starting with residence, offices, and various public buildings.

Practitioner gets an opportunity as well to participate in the work of Flat Bank Mandiri in BRI Street, which join from the beginning of the project until create floorplans with AutoCad software. Practitioner also contributes to interior design work on official residence project, where the practitioner can get insight into moodboard, types of furniture, up to interior designing. As long as the two projects are working, practitioner confronted with revisions to achieve good and appropriate results.
