PROGRAM MERDEKA BELAJAR – KAMPUS MERDEKA SKEMA STUDI PROYEK INDEPENDEN “PROGRAM BANGKIT 2021”

Professional Work is an activity that aims to provide students with an overview of the world of work, students have the opportunity to implement the theoretical knowledge gained during lectures in accordance with the competence of the Study Program (Prodi). In the Implementation of Professional Work in the 2021 Bangkit Program, the practitioner conducts lecture activities by taking Cloud Computing lessons as one of the three existing lessons. During the implementation, the practitioner is given learning modules related to Cloud Computing and individual career development. The results obtained from this program are in the form of a final project, namely the Capstone Project as an implementation of lectures while in Bangkit.

Keywords: *Professional Work, Cloud Computing, Bangkit, Capstone Project.*
