ABSTRACT

Rolando Immanuel Lembong (2018071004)

DEVELOPMENT OF SEARCH FEATURES ON THE WEBSITE OF THE DIRECTOR GENERAL OF THE MINISTER OF LAW AND HUMAN RIGHTS

The Ministry of Law and Human Rights is the ministry within the Indonesian government that is involved in dealing with law and human rights. The trainee is assigned to the sub-division of the Development and Management of Information and Communication Technology. In this professional internship, the trainee gets a trainee assignment to develop a regulatory database website. The regulatory database is a website for viewing regulations and laws. Practitioners are given the freedom to be creative in the process of developing a regulatory database website. After being given the task of the trainee doing the design in the form of a use case, then the trainee begins to enter the coding writing stage. The result of developing a regulatory database website is that users can search for regulations and laws and the availability of admin pages that can do engineering such as create, edit, and delete on pages that can be accessed by users.
