*Revitalization of a cultural heritage is an important work that will be done by the government to protect and maintain a cultural heritage site with attention to the culture of the surrounding community. Revitalization is done with the aim of reviving the dead place / space "inedible time" to be able to return to function properly and can be used by the community. Revitalization of istiqlal mosque heritage building was done by order of President Jokowi Dodo to the Provincial Government of DKI Jakarta to revitalize the entire Area of Medan Merdeka, one of which is Istiqlal Mosque. By prioritizing the function of the area with the concept of green open space and integration with public transportation. The focus of this research is on what elements become revitalization components and see how important revitalization of istiqlal Mosque is done. With the aim of knowing how the elements of outer space and inner space in Istiqlal Mosque after revitalization and knowing what the impact of the revitalization on Istiqlal Mosque. The research method used is qualitative descriptive method. The research was conducted with field observations as well as interviews with related instansi as well as visitors. From the observations and interviews can be concluded that the revitalization of Istiqlal Mosque is quite successful where some places that used to not function properly, become functioning properly to make the outside room look more organized and the space in the mosque has a different / new susasana from Istiqlal Mosque before revitalization.*
