### **OVERVIEW OF STAFF PROFESSIONAL WORK UNIT JAYA SOFT SKILLS DEVELOPMENT PROGRAM (JSDP) AT PEMBANGUNAN JAYA UNIVERSITY**

*Entering the 21st century, technology is developing rapidly. All sectors of life are progressing. The world of work and education is no exception. Workers are required to have hard skills and soft skills. Unit Jaya Softskills Development Program (JSDP) is a program prepared by Pembangunan Jaya University to assist its students in developing character and soft skills so that they can become graduates who have an entrepreneurial spirit or entrepreneur. Practitioners do professional work at JSDP as unit staff and also as training facilitators. Carrying out professional work in the JSDP unit of Pembangunan Jaya University provides learning opportunities for practitioners to apply some relevant psychological theories that practitioners have previously learned in lectures. Practitioners can also carry out one of the learning outcomes in special skills for psychology students based on the 2015 Pembangunan Jaya University curriculum used, namely being able to carry out basic level research using psychological principles and also supporting science and technology to provide alternative solutions to problems.*
