### **APPLICATION OF LOUIS SULLIVAN'S FORM FOLLOW FUNCTION DESIGN METHOD ON THE CIAWI HOUSE PROJECT**

*In the professional work program carried out at PT.Jeferiasthama, the practitioner is in a studio unit which has the task of producing working drawings, designing, calculating the cost budget, rendering the design results and making materials for presentations with clients. The field of work that the practitioner does is designing masses building, making work plan drawings, to making schematic designs. In carrying out this work, the practitioner tries to apply the design method Form Follow Function which emphasizes the functional aspects of the form, which can be applied to a real project, namely the Ciawi House project.*

**Keywords:** *Form Follow Functon, method, function*
