EXPLORE THE ROLE OF THE ARCHITECT ASSISTANT

Architecture is a field that studies the art of designing buildings, an architectural company also has several sub-classifications according to the field it has, with architecture students it can be said as hope for the next generation for seniors, therefore an experience is needed to support student careers later when you have graduated. The type of work that varies in an architectural firm and the lack of experience that students have to be in the real world of work so that the role of students for the basic footing is placed for the Architect Assistant section so that students will have a better understanding of assignments carried out by a company.

Keywords: architecture, student, architect assistant
