### **PROCESS STUDY IN INTERIOR DESIGN AT MICASA LIVING**

*During the practice of doing professional work with a period of three months at PT. Madani Kayana Mandiri (Micasa Living Interior), practitioner works under the principal as an intern. In this Professional Work report, the practitioner does the work of several projects that require the practitioner to create 3D interior drawings, working drawings, to visual images. In the procedure, the practitioner follows the work system at Micasa Living. Starting from meeting clients, fulfilling client wishes, designing, making working drawings, to project supervision until the project is completed. The end result of the Professional Work that the practitioner gets is how the practitioner can work on a project from beginning to end. And in a design there are many things that must be considered starting from the condition of the room, budget, beauty in design, to fulfilling all client needs.*

**Keywords:** *Material, Technical Drawing, Interior*
