PERANCANGAN USER INTERFACE UNTUK APLIKASI GREATDAY HR

Practitioners carry out internship activities to fulfill mandatory courses at Pembangunan Jaya University. Practitioners have the opportunity to do internship at PT People Intelligence Indonesia, a company that provides the GreatDay HR application, namely the HRIS application that helps Human Resource Development. Practitioners have the opportunity to become UI/UX Designer whose help design the appearance of applications, illustrations, and other design assets. During Internship, practitioners learn directly about the stages of work and other new insights, especially in the field of UI/UX design. During Internship for three months, the practitioner makes user interfaces and illustrations. Another thing that practitioners do to help the UI/UX design team is research and create design assets. This Internship helps the practitioner get to know the world of work, especially in UI/UX Design and makes the practitioner learn a lot of new things.

Keywords: *UI/UX Design, Illustration, Internship*
