PERANCANGAN ANTARMUKA WEBSITE DIREKTORAT SMA KEMDIKBUDRISTEK MENGGUNAKAN FRAMEWORK LARAVEL 8

While the practitioner is carrying out professional work at the Directorate of High Schools (Kemdikbudristek), the practitioner works under the auspices of a Professional Work supervisor. During Professional Work, the practitioner is given the task of making a website redesign for the SMA Directorate as a Front-end. What the practitioner does is redesign the website on every page that you want to change using the Laravel 8 Framework. The practitioner is able to redesign the website and the practitioner will get a lot of lessons learned, one of which is like redesigning the website and gaining work experience and the practitioner is able to work in a team get along well with co-workers and agency staff, practitioners can be responsible for the tasks assigned, students can manage and use time better to become individuals who do not give up easily in the face of difficulties.

Keywords: *Website redesign, Website, Front-end, Laravel 8*
