

## **ABSTRACT**

**Abdurrahman Rijalulhaq (2018051014)**

### **DESIGNED TOYS FOR CHILDREN'S MOTOR TRAINING FROM KINDERGARTEN TO ELEMENTARY SCHOOL**

*While carrying out professional work activities at Nobie Toys the author worked as a member of the Design Production division with supervision by the supervisor at Nobie Toys. During his professional work activities at Nobie Toys, the author was guided and informed about the types of toys, the manufacturing process, designs for toys, and packaging of toys. The author also gains knowledge of design, research on materials for products, and remaking wooden toys from products that have been made manually. By following this professional work activity, the author can feel how the world of work is and feel how the world of work is when he has graduated so that when the lecture is finished he is not surprised by the world of work that he will face.*

**Keywords: Product design, world of work, professional work, wooden toys**
