DESCRIPTION OF PSYCHOLOGIST ASSISTANT WORK SYSTEM IN INDONESIAN PSYCHOLOGIST PRACTICE FOUNDATION, TANGERANG SELATAN BRANCH

Internship program is defined as a form of activity that aims to provide students with an overview of the systematic world of work and also be able to apply what they have learned during college, and students are also given the opportunity to analyse theory and practice in accordance with the competence of the Study Program. The internship program is useful for improving the quality of human resources, so that graduate students from this university have a fairly highly competitive value. On this occasion, the intern carried out an internship program at Yayasan Praktek Psikolog Indonesia (YPPI) as a psychologist assistant for three (3) months. The reason why intern choose YPPI as an internship program place is because this foundation is an organizational institution that provides professional psychologist services consisting of competent and experienced psychologists. YPPI provides various psychological examination services that are legally incorporated and have licenses to practice, and collaborate with many psychologists in Indonesia. At YPPI, intern choose to be placed as assistant psychologists. The tasks carried out by interns during the internship program at YPPI include administration of test kits, scoring, test interpretation, observation, and interviews.

Keywords: *Internship Program, Assistant Psychologist, Psychology, YPPI.*
