

JUAN CALVIN DAMARA (2019061040)

Visual Design as a Graphic Designer at NEWAVE STUDIO

Students start Professional Work activities, which become a compulsory subject that must be carried out at Pembangunan Jaya University. While undergoing professional work as a Graphic Designer at Newwave Studio, students start working and are directly guided by a work supervisor. Students gain experience regarding responsibility, train themselves, and see the creative process of professional industries. Because of this Professional Work activity, students can hone their skills to make designs according to the requests of clients or the company itself. In addition, students are also trained and given guidance to work on projects in a timely manner according to company requests. The supervisor also provides knowledge of shortening the time when designing. Good discussion about the Content Brief including things that were also obtained by students.
