

ABSTRACT

Zahra Aulia Fauzia (2019071030)

Quality Assurance OneCC Project

While carrying out this industrial internship activity, was carried out at one of the national private banks, Tbk Indonesia, which is a large private commercial banking company in Indonesia that always prioritizes customer convenience. Practitioners carry out industrial internships at one of the national private banks, Tbk Indonesia for six months starting from 1 July 2022 to 13 December 2022. During this industrial internship, practitioners are placed and carry out tasks in IT Testing Management, especially with Squad 2 in the section assigned to assist with testing scripts on the OneCC project at PT XYZ Tbk Indonesia. To turn the credit card system into one platform and reduce product maintenance, practitioners are responsible for several OneCC products, one of which is billing statements. Practice using servers from the company and TestDev to enter the Ascend AS400 computer system to do the testing. Practitioners gain a lot of experience while working to always act professionally and respect time in the world of work, because this is very important when they enter the world of work, in any sector.
