Cloud Computing for Jobseekers di Chairos Academy 2022

Chairos Academy is an Independent Campus program with an independent study scheme organized by the Ministry of Education, Culture, Research and Technology and under the auspices of Chairos International Ventures. The program from Chairos Academy is an online learning scheme to study Cloud Computing with the theme Cloud Computing for Jobseekers, Chairos has accepted 300 students from various universities in Indonesia. Students get Free Learning status to take part in an independent study program for 1 semester or the equivalent of 20 credits at tertiary institutions. The platform used to support the learning process is Amazon Web Service, commonly abbreviated as AWS, this platform is currently the leader in the cloud computing business world. The Cloud Computing for Jobseekers program is expected to produce participants to become Cloud Engineers and be able to solve various problems in cloud computing infrastructure with modern technology and become a generation that is ready to do business in the world of technology, especially in the field of Cloud Computing. Activities at Chairos Academy include a final project where five people form a group to design, analyze, and create cloud infrastructure projects.
