INOVASI UI/UX MITRA CHALLENGE

Skilvul is a technology education platform that provides digital skills lesson content with a "blended-learning" method in online and offline form. Skilvul's great concern for the progress and development of Indonesia, Skilvul provides opportunities for Indonesian students to study through the MBKM (Merdeka Belajar-Kampus Merdeka) program with the MSIB (Magang dan Studi Independen Bersertifikat) scheme for 5 (five) months. This program runs from August 16, 2022 to December 30, 2022. This activity will essentially carry out the main project, namely creating UI / UX (User Interface / User Experience) from partners. The partner who cooperates is Pasarpolis. The goal of the project is to answer from the challenges of partners.
