HUMANITY FIRST INDONESIA'S COMPANY PROFILE WEBSITE DEVELOPMENT

Internship program is an opportunity for students to gain experiences, develop knowledge that has been learned in university, and gain new skills in the work field. The internship program is carried out at Humanity First Indonesia. To support the foundation's running programs, information and promotion media are needed. One of the medias being developed is a company profile website.

During the internship, student is involved directly in developing the foundation's website, such as enhancing user interface, adding menus and features, processing data, and filling out required materials for the website. The intern works under the supervision and guidance of the Vice Chairman of the foundation.

Keywords: *media, website, website development*
