### ***APPLICATION TESTING MECHANISM OCTO FRIENDS***

*Kampus merdeka Certified Internship aims to provide a forum for students to learn science through real work. This activity is in collaboration with several partners, Salah satu Bank Swasta di Indonesia is one of the partners who joined. Salah satu Bank Swasta di Indonesia provides opportunities for students to gain experience by participating in ongoing or future projects. One of the opened projects is OCTO FRIENDS. In this project, the practitioner enters the testing management division. Practitioners learn how to create Test Scripts, analyze test documents, and study the running business flow. The end of this program provides a lot of input to the practitioner so that it is hoped that future practitioners will be better prepared to face the world of work in the digital era.*
