

## ABSTRACT

### **THE COSMOLOGY CONCEPT OF THE TJONG TEK BIO TEMPLE, TANGERANG**

The city of Tangerang is a city that is known for having a Chinese community group in it which is popularly known in the eyes of the public as the Chinese Benteng. The Chinese Benteng community was born as an icon for the city of Tangerang for the community because of the characteristics and uniqueness that this Chinese Benteng group has and is not like other Chinese communities spread across the archipelago. The uniqueness of this community group raises a lot of questions, so this research was made, where a characteristic of the Chinese Benteng community is that they are Mandarin but inversely proportional to the culture and not being able to speak Mandarin in general, a Chinese Benteng Chinese ethnicity. This research was created to answer the question of whether a point of view held by the Chinese Benteng community towards a belief called Fengshui in the implementation of a house of worship at the Tjog Tek Bio Temple uses the same beliefs that the Chinese generally use or uses another belief that grow alone in the community with local cultural factors
