

ABSTRACT

ADMINISTRATION AND IMPLEMENTATION PROCESS OF LAYOUT FURNITURE IN INTERIOR OF HOUSE

While carrying out professional work in the Parisauli Architect Architect Consultant Bureau, Praktikan works under the supervision and guidance of Senior Architects. In professional work, Praktikan had the opportunity to participate and be directly involved in the implementation of renovation of 2-storey houses located in Cluster Ruby, Residence One, BSD such as making interior layouts in a house in 2D or using Autocad, in 3D or using Sketchup, and make a site or project visit.

The responsibility of the Parisauli Architects Architects Bureau in the house project located in the Ruby Cluster is the renovation of a 2-storey house. The renovation of this house is called the Rumah RB project. Architect Consultant Bureau of PSA Studio has several times received residential renovation projects. The designs created by Parisauli Architects usually have their own unique characteristics. Because PSA Studio is an architectural firm, its role is very important in realizing the architectural design desired by the client, otherwise it can explain the risks of the architectural design of the house.
