VISUALIZATION OF RESULTS DESIGN & POSTER LAYOUT IN ARCHITECTURAL DESIGN VEHICLES

PT Parametr Indonesia is one of the renowned architecture bureaus that accepts several students to do professional work. During carrying out professional work, praktikan is directly under the work supervisor and architect. In professional work, praktikan is given the opportunity to do some work that is directly provided by the architect. There are many projects that involve praktikan to join in the design, such as madrasah making projects, BNI slipi building projects, housing projects for the BSD area. In addition, PT Parametr is also a company that often participates in competitions. During praktikan doing professional work, praktikan given the opportunity to take part in a contest by PT Parametr Indonesia. The main task of praktikan as a member is as a finishing in rendering and also the layout of the poster

***Key Word:** Rendering, Photoshop, Layouting ,Editing*
