REVITALIZATION OF DKI JAKARTA TROTOAR HAS A GOOD IMPACT FOR THE COMMUNITY OF CAPITAL CITY

Practical work is an activity during lectures that supports students in learning to get into the real world of work. By joining this practical work, students get knowledge about what is happening in the world of work. Before the era of globalization, using some of the knowledge that was taught in the lecture. In this practical work, students can learn about ways of working on a Sidewalk Revitalization project under the auspices of the government. Making the DKI Jakarta area more advanced from time to time by revitalizing supporting facilities such as the sidewalk, which is very important in the current period where global warming is increasingly increasing and disturbing for the continuation of human life. In this practical work report, praktikan wants to share experiences during the practical work. What is obtained and found in this practical work. From the results of this experience, praktikan can conclude that practical work is very beneficial for students, especially students who are ready to enter the workforce. Various interesting knowledge and experience can be obtained from this practical work
