At this time, motorbike detailing maintenance workshops are increasingly in demand by the public, as the name implies, namely detailing, of course the services offered by service providers vary widely, ranging from express polish to detailing services and also nano coating. Public awareness of their motorbikes is getting better, especially for those who have motorbikes that are used to support their daily activities. store manager in sharing information. In addition, there is no data backup or backup, so that data such as reservations, customer visit reports, sales fractures and customer notes are vulnerable to loss or damage. Based on these problems, the application needed by Garasi Mandi Wajib Workshop is a reservation application that can be fully managed, can also make reservations and manage workshop data and generate computerized reports. With this application, the Mandatory Bath Garage becomes more flexible in carrying out business activities because it is more flexible which can be adjusted according to the wishes of the workshop owner so that it will be helpful for both the customer and the workshop owner.
