### **DEVELOPMENT OF OFFENSE MODULE HUMAN RESOURCE INFORMATION SYSTEM(HRIS)**

*Implementation of Profession Working activities (KP) at PT. Tiga Daya Digital Indonesia works as part of the HCIS team under the supervision and guidance of the Line of Business (LOB) Levvy D. Malik. In this activity, the practitioner has the opportunity to get the task of making user interfaces for the HRIS application, especially on the offense module. Offense module is a management for employees who commit violations, the module can be used as a parameter as a consideration for HR assessment for each employee in calculating payroll, benefits or promotions.*

**Keywords:** Human Resource Information System, Offense, User Interface
