### INVOICE PAYMENT PROCESS AND RECORDING IN ORACLE SYSTEM AT PT CROWN WORLDWIDE INDONESIA

*The tough job competition makes students have to prepare themselves well, one of which is by carrying out professional work activities. Practitioners carried out professional work for three months at Crown Worldwide Indonesia. In carrying out professional work (KP) at Crown Worldwide Indonesia, practitioners are assigned to the Finance & Accounting section. The main activity carried out by practitioners is making invoice payments and recording them on the company's oracle system. In addition, practitioners record daily payments received by banks. The obstacles faced by practitioners while carrying out professional work activities such as system errors. However, practitioners can resolve these obstacles by discussing with employees. During the professional work, practitioners gained a lot of new experiences. In addition, practitioners can find out the suitability between the theories that have been studied previously and their practice in the field.*

**Keywords:** Account payable, Invoice, Payment Process
