*The Human Resources Bureau is a work unit tasked with coordinating, managing and preparing coaching materials on human resources within the Ministry of Education, Culture, Research, and Technology. While carrying out Professional Work at the Human Resources Bureau, practice is placed in the administrative subdivision, working as the management of State Property (BMN) directly related to assets and inventories under the supervision and guidance of the BMN management section. In carrying out professional work, practitioners have the opportunity to participate in the implementation of inputting new purchase data on state property through our asset applications, stock inventory and making direct inventory demand trend. In its implementation, practitioners get a lot of useful knowledge and experience while undergoing professional work programs at the Human Resources Bureau of the Ministry of Education, Culture, Research, and Technology.*
