PREPARATION OF FINANCIAL REPORTING DATA AT THE PALEMBANG CITY PUBLIC WORKS AND SPATIAL PLANNING OFFICE

While carrying out Professional Work (KP) at the Palembang City Public Works and Spatial Planning Office, Practitioners are placed in the Finance Sub-Section and work under the supervision and guidance of the Head of Division and Finance Sub-Section Staff. Practitioners have the opportunity to help with the work of the Finance Sub-Section Staff, such as Controlling Tax Recap Data for Bank Data 2023, Inputting SPJ Shopping for GUP Submissions on the SIPD Application, Inputting Short-Term Debt Payment Transactions 2022. During the Professional Work period, there are several obstacles faced by Practitioners , to avoid misunderstandings, discussions are held with practitioners or work supervisors. There is a connection between the theory that practitioners learn in lectures and the work that practitioners carry out during their professional work period.
