ABOUT ME

As an information systems student at Pembangunan Jaya University, my passion for software engineering and full stack developer is ingrained in me, as well as a strong drive to develop leadership skills. I am fully committed to maximizing my educational experience and constantly seeking new opportunities to enhance my knowledge and abilities. I approach every challenge with an open mind and a thirst for learning, consistently exploring new realms to foster personal and professional growth. With an unwavering work ethic and relentless pursuit of excellence, I firmly believe that I will create a significant impact in the field of computer science and beyond.

EXPERIENCES

MP Project

(Juni 2023 - September 2023)

Backend Developer

- As a Backend Developer using Laravel, I have an important role in the development and maintenance of the server side of web applications.
- One of my main tasks is to design and develop models, controllers, and routes using the features provided by
- Laravel.

Essentials!

(October 2022 - January 2023)

Corporate Social Responsibility

- Coordinating and promoting products, services associated content over social media, during a means that's in step with an organization's complete and social media strategy.
- Identified networking and partnership opportunities to grow sustainability project scope and impact.

Pembangunan Jaya University

(September 2020- January 2022)

ICT as Software Developer

- During the three-month period at Pembangunan Jaya University's ICT unit, my main tasks involved front-end and back-end development to ensure optimal functionality of the web application being worked on.
- As a Web Developer Support, I am actively involved in handling technical assistance requests from users 222 and
- solving problems that arise in web applications. I provide hands-on technical support, both through direct communication and through online support platforms.
- My work experience as a Web Developer Support in Universitas Pembangunan Jaya's ICT unit not only improved my technical skills in handling technical issues, but also strengthened my interpersonal and customer service skills.
