South Tangerang, Indonesia

I am currently pursuing a Bachelor's degree in Civil Engineering at Pembangunan Jaya University. I have been actively engaged in gaining comprehensive knowledge and hands-on experience in various aspects of the field. Moreover, i have developed a diverse range of skills and abilities that directly correlate with the demands and challenges of the Civil Engineering profession.

## Education Level

**Universitas Pembangunan Jaya - South Tangerang, Indonesia**

Aug 2020 - Jul 2024 (Expected)

*Undergraduate in Civil Engineering, 3.15/4.00*

**Madrasah Aliyah Pembangunan UIN Jakarta - South Jakarta, Indonesia**

Aug 2017 - Jun 2020

*High School in Science Major*

## Organisational Experience

**Kompetisi Jembatan Indonesia XVII - South Tangerang, Indonesia**

Nov 2022

*Security Divison*

The Indonesian Bridge Competition is a competition held by the Talent Development Center (Balai Pengembangan Talenta), National Achievement Center (Pusat Prestasi Nasional), and Ministry of Education, Culture, Research and Technology.

- Served as a valuable member of the security team during the prestigious Indonesian Bridge Competition in 2022, ensuring the safety and smooth operation of the event.

**Class Representative Council - South Jakarta, Indonesia**

Nov 2018 - Nov 2019

*Member*

Class Representative Council in Madrasah Aliyah Pembangunan UIN Jakarta

- Demonstrated leadership skills and active participation in high school as a member of the representative council, representing the interests of my class and contributing to decision-making processes.

## Skills, Achievements & Other Experience

- Soft Skills:** Fluent in Bahasa Indonesia, intermediate in English.
- Hard Skills:** Effectively analyze and solve complex engineering problems, ensuring the safe and efficient design and execution of civil infrastructure projects from construction, transportation engineering, and construction management.
- Software Proficiency:** Proficient in utilizing AutoCAD for drafting and modeling, MATLAB for numerical computation and data analysis, and QGIS for geospatial analysis.
- Interest:** I am passionate about optimizing transportation systems, taking into account various factors such as traffic flow, infrastructure design, and sustainable transportation solutions. I have a keen interest in effectively managing construction projects, which involves tasks such as planning, scheduling, budgeting, and resource allocation. Additionally, i am fascinated by construction processes, techniques, and project management, with a focus on ensuring the successful execution of civil engineering projects.
- Projects:** Create and design a two-story house plan with a total building area of 285m<sup>2</sup>. Develop a budget plan and a work breakdown structure as part of a Construction Management course.
- Technical Knowledge:** Understanding of construction principles, transportation engineering, and construction management.
- Microsoft and Google Platforms:** Skilled in various microsoft tools, such as Word, Excel, and PowerPoint, for documentation and data analysis.
